

## **Elinora Inga Sigurdardottir**

**President KVENN & Founder and Director for Royal Natural Snack**

KVENN is the women inventors and innovators network, and was founded 2008 by the chairman Elinora Inga Sigurdardottir. The members are 120. We work closely with GWIIN/ EUWIIN and Elinora is on the Advisory board.

SFH/KVENN's goal are to connect inventors and innovators in Iceland and to cooperate with similar associations globally :

- to make inventors and innovators visible and noticeable to society
- to give inventors and innovators contacts in other countries
- to encourage inventive people to develop their creativity and realize their ideas
- both social and technical ones for the benefit of society.

**Elinora Inga Sigurdardottir** is also the Founder and Director for Royal Natural Snack. She was born in Reykjavík, Iceland. She is married and the mother of four children. She has a B. Sc. degree in Geology but she is also a registered nurse and a licensed schoolteacher. Since 1997 she has been Chairman of the Icelandic Federation of Inventors. She is organizing a web site for [QUINNNetwork.com](http://QUINNNetwork.com) (Women Inventors in the Nordic Countries).

Two of her other main interests are Line Dancing and Country Music. She also enjoys traveling around her beautiful country, [Iceland](#) with her family. For many years she has been interested in all-natural foods and treats for pets, especially dogs. For centuries it has been the custom in Iceland to give dogs a treat of dried fish skin. In some countries it is not easy to obtain even fresh fish, let alone dried fish and dried fish skin, but here in Iceland we enjoy a plentiful of supply. The fish skin is very healthy for dogs, particularly for their teeth, and likewise for puppies.
